High Absorption
Capacity

Features of ORCA™ Foam Absorbable Gelatin Sponge

High Absorption Capacity: Absorbs up to 35 times its weight in fluids, enabling rapid hemostasis during surgical procedures.

Biodegradable and Absorbable: Completely reabsorbs within 3-7 days, eliminating the need for removal.

Safe and Sterile: Individually packaged to maintain sterility and prevent cross-contamination.

Versatile Application: Can act as a carrier for antibiotics or other medical fluids.

FDA-Approved: Meets stringent safety and efficacy standards, ensuring reliable performance

ORCA™ Foam Absorbable Gelatin Sponge Hemostat, USP (Standard)

How it Works

When applied to a bleeding site, the **ORCA FOAM Absorbable Hemostatic Gelatin Sponge** quickly soaks up blood, forming a gel-like barrier. This barrier helps the body's natural clotting process by sealing the wound and stopping the bleeding. Made from pharmaceutical-grade gelatin, the sponge is both absorbable and biodegradable, meaning it dissolves naturally within the body over time (usually within 3-7 days), so there's no need for removal. Its high absorption capacity allows it to absorb up to 35 times its weight in fluids, making it an effective tool for rapid hemostasis in dental surgical procedures. Additionally, the individually packaged sterile cubes prevent cross-contamination and can serve as carriers for antibiotics or other fluids, ensuring a safe and efficient treatment process.

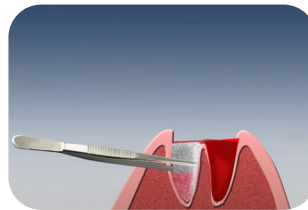

How to Apply

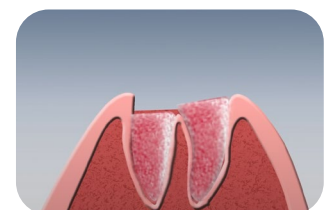

Dental Cube

Tooth Extraction

Placing the dental cube
on the bleeding site

- Blood Coagulum Stabilizer
- Degrades within 3-7 days

Benefits of ORCA™ Foam

Rapid Hemostasis

Quickly forms a gel-like barrier to stop bleeding effectively.

Environmentally Friendly

Made from 100% pharmaceutical-grade gelatin, it dissolves naturally without leaving residue.

Convenient and Ready to Use

Pre-cut into 10mm x 10mm x 10mm cubes, eliminating the need for additional preparation.

Enhanced Healing

Clinically proven to support better and faster tissue healing.

Reliable Performance

Designed to meet high-quality standards for safe and effective use in various medical and surgical settings.

Ordering Information

Product	Item no.	Size	QTY.
Orca Foam Cubes	OF-101010	10mm x 10mm x 10mm	32/BX
Orca Foam Nasal Tampon	OF-8007	80mm Cylinder x 7mm Diameter	20/BX
Orca Foam	OF-100	125mm x 80mm x 10mm	2/BX
