

# Protective Glasses

Wrap-Around Fit | UV Protection | Fog-Reducing Ventilation

## Product Overview

These clear protective glasses offer lightweight, full-wrap coverage and are designed to comfortably fit over prescription eyewear. With 99.9% UV protection and side ventilation, they combine safety and comfort for extended use in medical, lab, or industrial environments. Scratch-resistant lenses and latex-free materials make them a reliable choice for everyday protection.

## Features and Benefits

- Prescription Compatible: Designed to fit comfortably over most eyewear.
- UV Protective Lenses: Blocks 99.9% of harmful UV rays.
- Side Ventilation: Improves airflow to reduce fogging.
- Optical Clarity: High-quality lenses for clear, undistorted vision.
- Latex-Free Material: Safe for users with latex sensitivities.
- Scratch-Resistant Coating: Durable lenses for repeated use.
